

Our program:

Immigrational Coaching – professional + intercultural:
"International academics for the German job market"

Who we are?

Coaching and training academics, senior managers and job experienced academics on an international level had been our profession for more than 10 years. Reorientation, career development and finding new opportunities can be supported by individual coaching.

Our motivation?

- In times of demographic change in Germany companies are interested in hiring professionals all over Europe and outside Europe by using the Blue-Card (since August 2012)
- Our experience with hiring, job-training and intercultural training will help you to start a career in Germany
- We believe that people from different nations will support cultural diversity and establish an open minded culture

Who we are looking for?

University graduates (with or without job experience) with the following branch of study:

- ⤴ physicians with every type of human medical sciences
- ⤴ engineers (mechanical engineering, electrical engineering, process engineering)
- ⤴ IT-professionals (e.g. software developer, network specialists)

who would like to start working in Germany.

What our program contains of?

We will:

- ⤴ help you with job-seeking
- ⤴ prepare you for job application and succeeding in interviews
- ⤴ coaching and support during the time of probation
- ⤴ aid you to immigrate into everyday life and workaday life including e.g. contact to public administration, finding a flat
- ⤴ support your professional training and development and / or on the job-training

What about the cost?

Our program is financed by companies. In addition we benefit from public aid programs.

Interested?
